

SEEKS TORID U.S. OF THE RED PERIL

Rep. Heflin Appeals to Old Parties to Meet on Common Ground.

The House yesterday gave tremendous applause to an appeal by Representative Heflin, Democrat, of Alabama, to the members of both parties to get together on an effective program to rid the United States of "Reds," anarchists and other enemies of the government.

Mr. Heflin directed attention to a circular sent to Washington newspapers by the "Red anarchists of the United States."

"In that circular," he said, "there was a call to members of that order to arm themselves and to defend their households against attack by government officials. It presented a serious situation in our country. These alien enemies of our government are in our midst. Something must be done to rid America of them."

"I am in favor of deporting them by the wholesale," Mr. Heflin declared. "These men are camped within the household of America. There seems to be no person which concerns them."

"Democrats and Republicans must meet about a common center to rid America of these enemies of our country."

Members of the subcommittee of the House Immigration Committee, which will begin in New York tomorrow an investigation of the delays in deporting persons ordered sent out of the country, conferred with Attorney General Palmer yesterday. Mr. Palmer said he favors any method which would make the effective execution of the deportation laws.

The subcommittee will confer with the officials of the Bureau of Immigration, Department of Labor, today. It is from this branch of the government that it is proposed to take the deportation power and lodge it in the Department of Justice.

COAL MARGIN TOO SMALL TO MEET MINERS' DEMANDS

CONTINUED FROM PAGE ONE.

Items not allowed in computing costs of production, were paid out of it.

"Of the cost of production, approximately 30 per cent went for supplies and general expense, while substantially 70 per cent or \$1.50 and a fraction per ton was paid to labor. The total therefore paid to labor on an assumed 500,000,000 tons was in excess of \$750,000,000. Assuming the same tonnage, the 46 cents per ton margin to the operators represents a total sum of \$230,000,000. The foregoing figures are for the entire country. Those for the central competitive field only for 1913 are as follows:

"The above figures are the totals for the central competitive field for the year 1913. For the last quarter of the year, however, while the realization remained the same the average cost of the field rose to \$2.10, leaving a margin of 25 cents per ton for the operator. The last quarter of 1918 more nearly approaches normal conditions than the yearly average."

Attorney General Palmer said yesterday that the conference at his invitation with operators and miners from Alabama and from the New River district of West Virginia.

"Allegations are being made by miners in Alabama that discrimination against the more active miners is being made by the operators in taking back men in pursuance of the order rescinding the strike," said Attorney General Palmer. "The allegations are denied by the operators, but they still persist."

"In West Virginia the miners allege that the operators are taking advantage of the situation to force a new contract. The operators allege that the miners are not coming back because the order rescinding the strike was not official, and because it did not bear the official seal. The same allegation is being made in various parts of the country."

Must Decide.

"The purpose of the conference is to get at the facts and come to an understanding so that the order may be carried out and work be resumed in full."

"I am satisfied that we can give assurance to all that the order was in proper form and regularly signed and sealed by President Woodrow Wilson. Secretary Green of the United Mine Workers. The reason for these allegations is that so many copies of the rescinding order are floating around."

"With the clearing up of these points I am extremely hopeful that

ATTORNEY SCORES TAXICAB COMPANY IN LOITERING CASE

Lawyer Davis Terms Arrangement Between Company and Hotels Here An Oppressive Monopoly of Cab Service.

"Clever camouflage" and "subterfuge of the baldest kind to monopolize the carrier business at the hotel to the exclusion of all others" were the terms employed by Attorney Henry E. Davis, referring to the agreement between certain uptown hotels and the Terminal Taxicab Company in a test case before the Police Court late yesterday afternoon.

The hearing was before Judge Hardison. The array of legal talent included Assistant Corporation Counsel Ringgold Hart, Thomas G. Dunlop for the Shoreham Hotel and the Washington Terminal Company and Henry E. Davis and James A. O'Shea for the public hackers.

There were cases of loitering against Clarence Tackey, Richard Bell, Simpson Embrey, Otto N. Reamy, chauffeurs for the Terminal Taxicab Company, and Wade Private (two cases) and Lewis Daniels, public hacker.

The law against loitering was read by Mr. Hart. Its essential feature is that public vehicles must not loiter or stop in the vicinity of hotels, theaters or railroad depots only to take on or discharge passengers. It was shown that the Terminal Taxicab Company has concessions from hotels and the Washington Terminal Company and has agreed to supply enough motor vehicles for the use of the hotel guests and passengers arriving at Union Station, and that the fares are divided between the contracting parties.

"In the language of the street the hotels get a 'take-off' from the taxicab company," Mr. Davis interjected.

Lawyer Davis also termed the arrangement between the hotels and taxicab company a very oppressive monopoly of the cab service here.

Mr. Davis contended that the space in front of Union Station is the

mittie on conciliation," consisting of six Senators including Senators Lodge and Hitchcock. This motion was defeated by the vote of 42 to 48.

Senator Lodge finally yielded to a request made by Senator Underwood for a vote on ratification without reservations. This was defeated, 28 to 62.

By making a motion to reconsider this vote and then lay that motion on the table, which was carried, Senator Lodge placed the last barrier against any attempt to bring the treaty again before the Senate without action by the President.

Democrats Follow Wilson.

The defeat of the treaty was brought about by the votes of forty-eight democratic and thirteen Republican Senators. The Republicans who voted against ratification were Senators who have been from the very outset of the treaty fight against the document. All of the Democrats except Senator Reed of Missouri, were friends of the treaty, but yielded to the request of President Wilson for rejection of the resolution because of the reservations which it contained.

The Republicans who voted against ratification were: Senators Borah, Brandegee, Fernald, France, Gronna, Johnson, of California; Knox, La Follette, McCord, Moses, Norris, Poinsett and Sherman.

To Look Young Quickly For Special Occasion

How often have you fussed and pattered with your face on the eve of some important social event when you wanted to look your prettiest, and try what you would you just couldn't get the desired result? Next time your face becomes unruly, exhibiting a careworn and saggy appearance, and is crossed with fine lines, here's something that will quickly transform it into one of youthful freshness.

Just get an ounce of powdered saxolite at your druggist's, mix this with about a half pint of witch hazel, and bathe your face in the solution for two or three minutes. Immediately after you feel a "firming up" of the skin and underlying tissue, which naturally iron out the little wrinkles, worry marks and flabbiness. The contour and general appearance of your face are so improved, you will be glad you heard of this simple and harmless method.—Adv.
